

Year 1- Vocabulary

Autumn 1: What is planet Earth?		
Vocabulary	Definition	
globe	A model of the Earth	
continent	A large area of land	
aerial photograph	A photograph taken from above	
North Pole	The most northern point of the Earth (at the top)	
South Pole	The most southern point of the Earth (at the bottom)	
equator	An invisible line around the centre of planet Earth	
Pangea	One super continent that existed before it split into 7 continents	
coast	Where the land meets the sea	
cliff	A high steep face of rock or earth	
location	A place on a globe or map	
Science: Autumn 1- Seasonal Changes		
Vocabulary	Definition	
seasons	Changes in weather over the year There are 4 seasons	
change	To become different	
spring	The season when the weather starts to get warmer	
summer	The warmest season of the year	
autumn	The season after Summer when leaves fall off the trees	
winter	The coldest season of the year	
temperature	A measure of how hot or cold something is	
Autumn 2: Dinosaur Discovery		
Vocabulary	Definition	
palaeontologist	Someone who studies plants and animals from millions of years ago	
fossil	The remains of plants and animals from a long time ago	
extinct	No longer exist	
timeline	A list of events in time order	
evidence	Proof that something is or was real	
1	Was once alive	
existed		
existed pre-history	Time before written records	
pre-history discovery	Time before written records Something that has been found for the first time	
pre-history	Time before written records	
pre-history discovery artefact	Time before written records Something that has been found for the first time a man made object that is from a long time ago Science Autumn 2- Animals Inc humans	
pre-history discovery	Time before written records Something that has been found for the first time a man made object that is from a long time ago	
pre-history discovery artefact	Time before written records Something that has been found for the first time a man made object that is from a long time ago Science Autumn 2- Animals Inc humans	
pre-history discovery artefact Vocabulary	Time before written records Something that has been found for the first time a man made object that is from a long time ago Science Autumn 2- Animals Inc humans Definition Humans and other animals that breathe air, have live babies, is warm blooded and have	
pre-history discovery artefact Vocabulary mammal	Time before written records Something that has been found for the first time a man made object that is from a long time ago Science Autumn 2- Animals Inc humans Definition Humans and other animals that breathe air, have live babies, is warm blooded and have hair	
pre-history discovery artefact Vocabulary mammal amphibian	Time before written records Something that has been found for the first time a man made object that is from a long time ago Science Autumn 2- Animals Inc humans Definition Humans and other animals that breathe air, have live babies, is warm blooded and have hair A cold-blooded animal that lives on land and waterIt lays eggs	
pre-history discovery artefact Vocabulary mammal amphibian reptile	Time before written records Something that has been found for the first time a man made object that is from a long time ago Science Autumn 2- Animals Inc humans Definition Humans and other animals that breathe air, have live babies, is warm blooded and have hair A cold-blooded animal that lives on land and waterIt lays eggs A cold-blooded animal that lives on land and in water It has scales, dry skin and lays eggs	
pre-history discovery artefact Vocabulary mammal amphibian reptile carnivore	Time before written records Something that has been found for the first time a man made object that is from a long time ago Science Autumn 2- Animals Inc humans Definition Humans and other animals that breathe air, have live babies, is warm blooded and have hair A cold-blooded animal that lives on land and waterIt lays eggs A cold-blooded animal that lives on land and in water It has scales, dry skin and lays eggs An animal that eats other animals	
pre-history discovery artefact Vocabulary mammal amphibian reptile carnivore herbivore	Time before written records Something that has been found for the first time a man made object that is from a long time ago Science Autumn 2- Animals Inc humans Definition Humans and other animals that breathe air, have live babies, is warm blooded and have hair A cold-blooded animal that lives on land and waterIt lays eggs A cold-blooded animal that lives on land and in water It has scales, dry skin and lays eggs An animal that eats other animals An animal that eats only plants	
pre-history discovery artefact Vocabulary mammal amphibian reptile carnivore herbivore omnivore	Time before written records Something that has been found for the first time a man made object that is from a long time ago Science Autumn 2- Animals Inc humans Definition Humans and other animals that breathe air, have live babies, is warm blooded and have hair A cold-blooded animal that lives on land and waterIt lays eggs A cold-blooded animal that lives on land and in water It has scales, dry skin and lays eggs An animal that eats other animals An animal that eats only plants An animal that eats both plants and animals	
pre-history discovery artefact Vocabulary mammal amphibian reptile carnivore herbivore omnivore fish	Time before written records Something that has been found for the first time a man made object that is from a long time ago Science Autumn 2- Animals Inc humans Definition Humans and other animals that breathe air, have live babies, is warm blooded and have hair A cold-blooded animal that lives on land and waterIt lays eggs A cold-blooded animal that lives on land and in water It has scales, dry skin and lays eggs An animal that eats other animals An animal that eats only plants An animal that eats both plants and animals A cold-blooded animal that lives in water and has fins to move and gills to breathe A warm-blooded animal that lives on land and water It has feathers, wings and a beak It	
pre-history discovery artefact Vocabulary mammal amphibian reptile carnivore herbivore omnivore fish	Time before written records Something that has been found for the first time a man made object that is from a long time ago Science Autumn 2- Animals Inc humans Definition Humans and other animals that breathe air, have live babies, is warm blooded and have hair A cold-blooded animal that lives on land and waterIt lays eggs A cold-blooded animal that lives on land and in water It has scales, dry skin and lays eggs An animal that eats other animals An animal that eats only plants An animal that eats both plants and animals A cold-blooded animal that lives in water and has fins to move and gills to breathe A warm-blooded animal that lives on land and water It has feathers, wings and a beak It lays eggs	

In advise	Milest land is used for the uses
land use	What land is used for (houses)
village	Smaller than a town
settlement	A place where one or more people live
detached house	A house on its own
terraced houses	Houses joined together
human feature	Things that have been built by people
physical feature	Things that were already here, they would be here even if there were no people around
key	Shows what symbols on a map mean
symbols	Pictures that represent places
monuments	A statue or building to remind people of a person or event
train station	Where people get on and off the train
bus station	Where buses start and finish
high street	Where all the shops are in a town
	Science Spring 1- Plants
Vocabulary	Definition
stem	Transports water around the plant and holds the plant upright
roots	Absorb minerals and water from the soil They help anchor the plant
petal	Attract insects to the plant
leaf	Make leaves for the plant
deciduous tree	Loses its leaves each year
evergreen tree	Keeps its green leaves all year round
wild plant	Plants that grow where the seed falls
garden plant	Plants that people choose to grow in their garden
5	Spring 2: Kings and Queens
Vocabulary	Definition
monarchy	A king or queen of a country
reign	The time that a king or queen is monarch
coronation	The ceremony of crowning a king or queen
monarch	A king or queen
diary	A daily personal record that someone writes
artefacts	An object made by humans with an historical interest
ancestor	A family relative in the past
family tree	A diagram to show how families are linked
period	A time in history
period	Science Spring 2- Everyday materials
Vocabulary	Defintion
opaque	Objects can't be seen through it
transparent	Objects can be seen through
absorbent	Soaks liquid up
waterproof	Keeps water out
material	What an object is made from
stretchy shiny	Can be pulled to make it longer or wider without breaking Reflects light easily
dull	Doesn't reflect the light
duli	Summer 1: Wonderful Weather
Vocabulary	Definition
Vocabulary weather	
	The weather we actually get each season One half of the Earth
hemisphere	
temperature	A measure of how cold or hot something is
thermometer	An instrument used to measure temperature
effects	A change caused by an action
	Science – Summer 1- Seasonal Change
Vocabulary	Definition Definition
day	When the Earth is facing the sun

	,	
night	When the Earth is facing away from the sun	
seasons	Changes in weather over the year There are four seasons	
sun	A star that our planet rotates around	
moon	A large natural object that orbits or travels around Earth	
spring	The season when the weather starts to get warmer	
summer	The warmest season of the year	
autumn	The season after summer when leaves fall off the trees	
winter	The coldest season of the year	
Summer 2: Seaside Detectives		
Vocabulary	Definition	
event	Something that happens or takes place	
holidays	A break from work or school, sometimes involves a trip for leisure	
Punch & Judy	A puppet show for children to watch at the seaside in the past	
entertainment	An activity that is interesting and fun	
sea bathe	Swimming in the sea	
bathing machine	A wooden hut on wheels used to help people sea bathe	
Victorian times	The time when Queen When Queen Victoria reigned	
Summer 2: Science – Animals Inc humans		
Vocabulary	Definition	
senses	Any of the 5 ways to understand the world around us	
smell	The sense of smell to describe what we can smell with our nose	
texture	How something feels when it is touched	
sight	The sense of sight to see what is around us with our eyes	
touch	The sense of touch describes what we feel on our skin	
taste	The sense of taste to describe what we feel on our tongue when we eat	
gills	Part of a fish that helps them breath under water	
scales	A small plate that grows out of the skin of a fish
